St Patrick's Day (Late!)

Tire Kicker - 12:00 noon

Smoky Mountain Section wrenchheads are invited to attend our monthly "Tire Kicker" session. Each month on a Saturday we meet at a convenient location for lunch and to "kick some tires" afterward. This fun, casual and informative gathering of fellow Mercedes-Benz owners and club members is the essence of a car club. We gather to look at each other's cars, to share information and stories about our cars, and to generally enjoy the company of fellow members and their Mercedes-Benz cars. No reservation needed – just show up – guests welcome.

SMS member and National Technical Director George Murphy will attend to provide technical advice and information on parts, service and car care. So why not spend a pleasant afternoon discussing the latest MB successes and failures with a great group of MB people on our National Irish month.

Please call or email George Murphy by March 21 to make a reservation for brunch at Finn's March 23, 2019. Phone 865-482-9175 – email perfanalysis@comcast.net

The Tire Rack Street Survival® school is a safe teen driving program designed to go beyond today's required driver education and give teens across the U.S. the driving tools and hands-on experience they need to become safer, smarter drivers. The school provides trained and qualified in-car driving instructors as well as a valuable classroom experience for each student.

This school is open to permitted or licensed drivers ages 15-21.

If you are unable to join us, PLEASE forward this message to someone who can!

If you have a teenage driver or grandchild, I urge you to enroll them in this program – and – you may get a discount on your car insurance.

We need volunteers to help with classes and driving exercises.

Mail to: kaldenbk@icloud.com to volunteer
